What do we value?

Quiet

because true champions work their trade with humility

Prudence

because we know the value of a dollar

Strength

because we compete in a demanding market

International

because we are committed to productive efficiency and other markets

Diversification

because we hedge against market downturns through all energy environments

Great White Energy Services

THE CANADIAN CLUSTER

DUNVEGAN NORTH OILFIELD SERVICES:

Dunvegan North specializes in all aspects of pipeline construction, oilfield facility construction, pipeline maintenance, and road and lease site preparation from its headquarters in Fairview, Alberta, Canada. With a fleet of heavy equipment and an impeccable record of safety and quality on the job, we provide full-service construction and maintenance to the oilfield and to large-scale infrastructure projects. In particular, we have worked with Canada's leading companies to develop our core expertise in pipeline corrosion digs, lease site preparation, and environmental containment projects.

CANQUIP OILFIELD CORPORATION:

CanQuip Oilfield Corporation offers a full line of high-tech oilfield service equipment from our facility in Calgary, Canada. Since 2006, we have designed, manufactured, tested and delivered a variety of equipment specifically designed for the stimulation sector. These builds include coiled tubing units, nitrogen pumping units, hydration units, acid pumping units, chemical skids & trailers, data vans, quality control vans, sand trailers, power pack skids, and hydraulic wet kits. CanQuip offers truly custom equipment at a competitive price. Our in-house electronic and hydraulic expertise is available for service, as well as for contract design work.

Fax: 405.848.8816
14313 N. May Avenue
Suite 100
Oklahoma City, OK 73134

To Whom It May Concern:

Grizzly Oilsands ULC holds the second-largest land position in Alberta among independent development-stage oil sands companies. With over a half-million net acres, all 100% owned and operated, our assets lie in the heart of active oil sands development projects in the Athabasca region proximate to Ft. McMurray. I write in reference to our experience this drilling season as a customer of Great White SandTiger Lodging, whose man camp just south of Ft. McMurray we occupied from the middle of January through the middle of March. In sum, we had an excellent experience as a customer with Great White SandTiger Lodging.

Our winter plan called for us to house an average of 80 men in the Ft. McMurray area over the course of the drilling season. We selected Great White SandTiger Lodging for its easy access off Highway 63 near Ft. McMurray, for the fact that its camp was new and in pristine condition, and for its competitive pricing. The camp was conveniently located and providing for easy on/easy off access for our field personnel. The camp's semi-private rooms, featuring a private bedroom for each man and a shared bathroom for every two rooms, provided roomy, comfortable accommodations. The dining options – always among the most important factors for employee morale and comfort – were varied and of high-quality.

Reports back from our field personnel indicated they would gladly stay in the camp again, and it is our intention to continue using Great White SandTiger Lodging in the future.

Best regards,

Great White Energy Services

TESTIMONIAL FROM IMPACT 2000

April 22/2008

To whom it may concern,

I had the opportunity to stay at the Great White Sand Tiger Lodge for several weeks this past season with up to eighty men on my crew.

We found the staff efficient and courteous; meals were well prepared with sufficient quantity. The accommodations were clean. The staff made it feel like we were coming home, rather than to a camp. The rooms are large, with desk and big beds, and satellite television. The "Jack and Jill" washrooms are also a big plus.

If our work takes us back to the area we will stay with Great White again.

Regards,
Erwin Pooley
Project Manager
Impact 2000 Inc.

Subject: Hanging Stone Camp Dunvegan North
Ralph

Just a note to say what a pleasure it was to spend time in your camp at hanging stone this past season. I spent a couple of weeks in the camp and had two men up there for about a month and we found the accommodation and the staff very hospitable. Keep up the good work and hope to see you next season.
